316L Stainless Steel Filter Housings

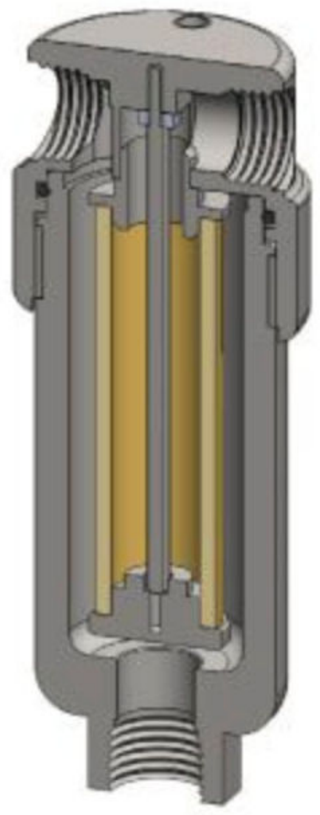
With the widest selection of stainless steel filter housings available, Classic Filters is almost certain to have the housing that meets your particular needs. If not, we'll build you one from scratch. As well as our standard filter housings, we also offer custom-made filter housings in plastic to suit your OEM or special application. While we traditionally supply the instrumentation and analyser sample system markets, our filters can be used is a huge range of industries and applications

316L Stainless Steel

Constructed entirely from 316L stainless steel, all our stock stainless steel filter housings are free of welds to comply with NACE MR-01-75. Each filter housing has a serial number to offer complete traceability of the material right back to the mill. Material certificates to EN 10204-3.1 can be supplied with the filter housing.

High Pressure

With ports from 1/8" to 1" NPT and pressure ratings from 7 to 1400 bar available from stock, our filter housings can be used in a wide range of environments and situations.



Stainless steel filter housing cross-section

CE Marks and the Pressure Equipment Directive

All our filter housings comply with the requirements of the **Pressure Equipment Directive (2014/68/EU)** and have CE marks if required. Non CE marked housings conform to SEP requirements. Read more about CE marks here.

Exotic Materials

No matter how exotic your requirements, Classic Filters can supply materials to match. We can produce housings in a range of materials including Titanium, Hastelloy, Monel and Inconel – Just let us know your requirements. Read more here.

Filter Housing Options

A range of filter housing options can be supplied including various seal types. Read more here.
